This is an exciting opportunity to learn tools for raising successful adults and having a happy home free of fighting and stress.

Seminar includes success handouts and lunch. Class includes workbook and handouts each week. Also class members will receive a monthly email from the Love and Logic institute.

Cherylann Moore is a six year facilitator of "Becoming a Love and Logic Parent" and a sixteen year Love and Logic Parent. Cherylann works as a Assistant Child care administrator at Create a Beat!. And also works in children's ministry at Hi-Land Christian Church. She has been involved in the child care and education field for twenty six years.

What is Love and Logic® for Parents?

This program is known as [Parenting with Love and Logic](#), a philosophy founded by Jim Fay and Foster W. Cline, M.D., and based on the experience of a combined total of over 75 years working with and raising kids.

Many parents want their kids to be well prepared for life, and they know this means kids will make mistakes and must be held accountable for those mistakes. But these parents often fail to hold the kids accountable for poor decisions because they are afraid the kids will see their parents as being mean. The result is they often excuse bad behavior, finding it easier to hold others, including themselves, accountable for their children's irresponsibility.

Jim Fay teaches us that we should "lock in our empathy, love, and understanding" prior to telling kids what the consequences of their actions will be. The parenting course [Becoming a Love and Logic Parent](#) teaches parents how to hold their kids accountable in this special way. This Love and Logic method causes the child to see their parent as the "good guy" and the child's poor decision as the "bad guy." When done on a regular basis, kids develop an internal voice that says, "I wonder how much pain I'm going to cause for myself with my next decision?" Kids who develop this internal voice become more capable of standing up to peer pressure.

What more could a parent want? Isn't that a great gift to give your child? Parent child relationships are enhanced, family life becomes less strained, and we have time to enjoy our kids instead of either feeling used by them or being transformed from parent to policeman.

"Becoming a Love & Logic Parent"

"Love allows children to grow through their mistakes. Logic allows children to live with the consequences of their choices."

This introduction to the program will empower you to handle some of the toughest parenting and classroom dilemmas. The day that will be filled with fun and laughter, guaranteed to equip you with even more tools for success.
